

STOCK EXCHANGE: REDUCING STOCKS TO INCREASE SHARE PRICE SSCT Seminar Presentation

Melbourne, 10 April 2007

GRA will present at the SMART Supply Chain Technology (SSCT) exhibition at 11am on 20 June 2007. GRA Partner Carter McNabb will present *Stock Exchange: reducing stocks to increase share price*, a case study on how tight inventory management impacted the share price of one Australian company.

The seminar will include how the project was approached, the measurable results achieved, and reasons for its success. Forecasting and planning techniques that improved service levels, reduced inventory and improved operating cash flow will also be explained.

In addition to this presentation, GRA's supply chain experts will be on hand for the duration of the SSCT exhibition at stand D21 to discuss demand, inventory and supply chain optimisation. Please feel free to drop by and let us know about your current supply chain management challenges, or just to say hello.

About GRA

GRA is an expert consulting firm specialising in demand, inventory and supply chain optimisation. We combine expert knowledge with best-of-breed planning and optimisation systems to take your supply chain to the next level. Our experience is your experience, and we work side-by-side with our clients to ensure change is successful and benefits are sustainable. Guaranteed results are typically delivered within 8-12 weeks, and we aim for a minimum 3:1 ROI.

About Carter McNabb, GRA Partner

Carter, a founding partner of GRA, has consulted extensively in the United States, Latin America, Asia and Australia to manufacturing, distribution, retailing and aftermarket organisations. Carter is a regular guest speaker at industry events and authors and runs the 'Managing Supply Chain Inventory' course within Monash University's Supply Chain & Logistics Masters Program, and delivers courses in Forecasting and Inventory Management as part of the Asia Business Forum's knowledge development series.

About the SMART SUPPLY CHAIN TECHNOLOGY

The SSCT exhibition brings the supply chain and logistics industry together at SUPPLY CHAIN WEEK. The exhibition offers the opportunity to launch new products, meet the press, network with analysts and come face-to-face with senior managers and professionals in supply chain, logistics and materials handling. In 2005 over 2000 people from 12 countries visited the exhibition making it the largest event in the supply chain and logistics industry in Australia.
