

SUPPLY CHAIN SOFTWARE GAINS' NEW ERP INTEGRATION APPLICATION

Melbourne, 13 December 2005

GRA has announced the commercial release of its GAINS' enterprise resource planning (ERP) integration application. The GAINS Integration Tool Kit is designed to interface with major ERP systems such as those of Oracle Corp, Oracle's J.D. Edwards line of software and SAP. It can be deployed by clients using any industry-standard structures, such as Oracle, DB2 or SQL Server, to decrease the time and personnel needed to integrate GAINS. There is no need for additional data conversion interfaces to be developed.
